LLB BSc (Mineral Science (Extractive Metallurgy), Chemistry).

Peter practises in the area of information technology and intellectual property law. Peter handles business disputes over technology and intellectual property rights as well as commercial transactions relevant to funding, commercialisation and organisation structures for technology related businesses.

Peter handles intellectual property matters in all Courts. Peter has also worked professionally as a metallurgist and industrial chemist.

Areas of Specialisation

- intellectual property related licensing
- protection of confidential information
- patents
- copyright
- trademarks
- IP Policies and IP In-house training
- technology litigation
- IP Management and exploitation

Relevant Matters/Accomplishments

Peter has practiced in a range of intellectual property matters, including major trade mark, passing off, patent, copyright and design litigation.

Through his scientific qualifications and previous experience as a practicing metallurgist and industrial chemist, Peter specialises in providing legal advice in relation to the technology of mining and industrial clients. He has acted on a number of disputes involving complex metallurgical and chemical patents.

He has advised on information technology and intellectual property licensing agreements for several major corporate clients.

Presentations

Peter has presented papers on technology and intellectual property management and commercialisation.
